

**ARCHITRAVE** The moulded part of the frame surrounding a door or window opening.

*add these to your design dictionary*

**ACHROMATIC** Colours that aren't. Blacks, greys and whites fall into this category, as they aren't actual hues. Rather, they're the presence or absence of light and are added to colours to alter their vividness.

Luxe details belie the low price point of **Brian Gluckstein's outdoor furnishings.**
